## EXPERIENCE

### Together - web app

Developer, Designer, Frontend, Backend

[Click to see live app](#)

April 2023 - July 2023

**Typescript, Python, Sanic**, Mayim, HTML, CSS,  
Figma, **SQLite**, esbuild, NGINX, Pipenv,

**TailwindCSS, React, React Router**

- Currently developing a full-stack app that lets you swipe movies you want to watch and generate lists of movies to watch together with your friends.
- Backend written in Python 3.10 using Sanic Framework, Mayim used for SQLite database
- Frontend in React and Typescript
- Used esbuild for frontend setup
- Basic NGINX configuration

### Breazy - breathing exercises web app

Developer, Frontend

January 2022 - December 2022

**React, React Hooks, Javascript**, HTML, CSS,  
Framer Motion, React Transition Group, **Jest, React Testing Library**

- Built a responsive, accessible web app in

## ABOUT ME

After 5 years working as a manager in clubs in Cracow, I decided to use my time as a stay-at-home mum as an opportunity to change my career path and become a software engineer.

I dedicated my time to developing two working products. I learned many modern technologies and expanded my knowledge. I love to learn and programming gives me lots of fun. Harvard's CS50 made me a much better and faster developer.

I enjoyed my time as a single developer and now I would like to solve real business problems, become part of a team, and code on a bigger scale.

## EDUCATION

**Harvard University's CS50**,  
Eloquent Javascript,

---

React with a mobile-first approach

- Collaborated using Trello with a friend learning UX and design
- Deployed at Github Pages
- Tested using Jest and React Transition Group

## Dulwich Hamlet FC - fanpage

Developer, Designer, Frontend

[Click to see live page](#)

may 2022 - current

**Next.js, React Hooks, Typescript**, HTML, CSS, Figma, Inkscape, Twitter Api

- Originally written in Next 12, using CSS Modules and Twitter API to show the club's timeline.
- Later rewritten using React with Typescript, Vite, and Tailwind CSS
- Unfortunately, I encountered problems with the Twitter API, and the project has become more of a landing page.

## MOST RECENT WORK EXPERIENCE

---

### Tak Bylo

Manager                      Cracow, Poland  
2014 - 2015

- Worked as a manager in a newly opened club-cafe
